NCERT Textbook Description: NCERT Physics (English Translation) Class XI Physics for Class 12 Textbook, Free, Kondakar,
Marathi, M.E. / CE, WASHINGTON – The U.S. Consumer Product Safety Commission (CPSC) today announced it has opened
a formal complaint investigation into a failure of the polycarbonate protective glass lens in the sun visors of certain Nissan
Rogue Sport models. “The CPSC will take the allegations made in the report seriously,” said CPSC Chairman Arthur R.
Portzline. “I have directed my staff to commence a preliminary review of this matter.” The CPSC’s external independent
counsel found that the Nissan Rogue Sport sun visor design “fails to provide an adequate user-interaction warning for front-seat
passengers.” The suspect sun visors were sold as original equipment by an authorized Nissan dealer. The lenses failed and could
not detach from the visor body when the visor is used as an ordinary sun visor. The use of the sun visor as a curtain with the
airbag deployed places the passenger in the position of a front-seat occupant. Aluminum sun visor weight reduction and multi-
axis engineering were incorporated into the Rogue Sport as part of a 2007 design revision and end-of-model-year change. CPSC
estimates that in 2011, 120,400 Rogue Sports were sold in the United States. Only models of this vehicle with sun vis
