Professional sound. Even if you aren't a pro.

• Start with the rhythm

Lay down a base for your song with drum loops from genres such as hip hop or dubstep. You can also bring together your own grooves with virtual drum machines.

Add your sounds

Drag & drop to add a driving bassline or guitar melody to the drums. This makes your original idea sound more musical straight away.

• Mix. Done

A relaxed piano, playful electronic sounds and pre-produced vocals: Music Maker is full of ideas for your music. Quickly mix down. That's it!

Full bass. Full sound. Full of great ideas.

Drag & Drop the Beat:

Combine pre-produced sounds from the most popular music styles to create your own songs in just a few mouse clicks. Music Maker Steam Edition comes equipped with 5,000 sounds for Dubstep, Hip Hop, Techno, Deep House, Jazz und Rock Pop.

Build your beats

Music becomes even easier when you can combine all melodies, bass lines and drums with each other, in 7 variations.

Record. Mix. Turn it up.

Connect a microphone and mix in your own vocals or rap. Bring even more power to your music with creative sound effects.

Professional results.

Who would've thought that Music Maker includes not just a VST interface, but also the famous zplane timestretching algorithm? It sounds complicated at first, but after you start using it, you won't believe your ears.

Virtual instruments:

Pop Drums

Play Pop Drums: This software instruments lets you hear and see the effects of individual controls on the instrument's sound. They form an ideal base for electronic music, calm chillout songs and relaxed hip hop beats.

Concert Grand

An elegant classic: The sound of one of the world's most popular concert pianos has been sampled to create this virtual piano.

Drum Engine

The Drum Engine provides bright drum sounds for electronic beat productions that you can use to support your own tracks.

Additional instruments

DN-e1 synthesizer, virtual Drum Machine and the Vita 2 Sample Player.

Additional highlights

7 pitches. Endless possibilities.

All Soundpools and Live Sets in Music Maker come in 7 different pitches. This lets you bring melodies, hook lines and bridges into your songs.

Onscreen keyboard

Create music with the keyboard. You can also play your own chords and arpeggios without a MIDI keyboard - with just one finger. It automatically plays the notes that fit the key of the song you're working on - so you'll never hit a wrong note again.

Companion app controls

Connect the free MAGIX Audio Remove app to Music Maker on your computer via Wi-Fi.

Download MAGIX Audio Remote for free

Recording controls

Use the app to start recording band practice on your computer.

Effects controls

Use the app to experiment with the room sound and filter controls for virtual instruments.

Note

The Music Maker Steam edition is a version of Music Maker available exclusively on Steam and contains all sounds, loops and instruments found in MAGIX Music Maker.

Really easy to use music creation software... but!!! It keeps cashing for no apparent reasons... and i can't find another music software that offers me as much as this one, so i'll keep it because i need it... You're warned if you're looking to buy this.

Just make sure you create a couple backups for every tracks you create. That or learn it the hard way.. Don't buy this\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u ad pop-ups, this part of Music Maker 2017 isn't unistalled when the program is removed. You will have to remove it manually through Windows 10 apps or the control panel on older versions of Windows.. This is a very good software to start off is you are music making, the loops for the people who are just starting and are messing around with the softawre but it can do much more advanced stuff also for more experienced people using this program. $1\,1/1\,0$. will not install. Garbage....Worked for a week, been a few months now of constant freezing, and now wont do anything, nor does it even show up in my inventory. DONT BUY!!!. too confusing, and very buggy, Id use a different music program.. It's not bad but is a pain to learn to use! chageing settings to get one thing to work thrn pop up pop up pop up really wish it had more stuff would say look for one little better kinda wish i could trade this crap. The latest patch completly ruined this program and it messed up every single song I have ever made using this program, I wasted countless hour to no avail. I would run away from this prgram if posible, never ever use this to make anything that you ever plan to keep. This is the worst program I have ever used and I have used more programs than 100 normal people combined as my job requires be to use 11 programs alone. NOT RECOMMENDED TO ANYONE EVER!!! STAY AS FAR AWAY AS POSSIBLE! You will lose your work when they release another untest patch because now you get to pay to be a beta tester.. I really recommend Music Maker 2017, one of the best programs on the market with good price.

You don't need talent to make great music.

- + A large selection of soundpools
- + Nice design of program
- + Great for professional music creation
- + Better than Music Maker 2016

Simply, buy it.

My opinion

I made this first song: https://www.youtube.com/watch?v=FjmVqPqrMFs

Really easy and intuitive software.. This software just crashes all the time

it doesnt worth the money and the devs dont care about it. No soundpool market, Magix Music maker free same account on both albums bought in MMM free soundpool market dosnt work in MMM 2017 steam edition it shows as added but those albums dont work. Hello:)

How i can buy this program Music Maker 2017 Steam Edition?

Please answer! Thanks:). This application has been terrible, one error after another. I finally get the application to work, and all the loops won't load and most of the instruments won't load. Not sure why this application has such a hard time.
