...) and the images are fine. On my PC with the screen resolution 1600x900 there is too much extra white space on the left and right side, too much more text is missing. Is there a way to change this? A: Assuming it's part of the default SketchUp installation, it's either a bug or a limitation. Go into Preferences->Interface and drag the "Display" tab to a higher resolution (I would leave the default until you've installed some plug-ins that can use the higher resolution). I thought this might be cool to team up on. I have a ton of ceramic knives he makes. I also have real wooden blades. If you are looking for more of an unusual option let me know. There were an abnormal amount of boxes of CTS knives during this sale as well. They are great little knives 82157476af
