.5156 - 19-04-2015 19:43:46 This is a sample output. Microsoft Office Professional Plus 2010 Product Key: 51661-4986-2196-7818-9187 A: #include int main(int argc, const char * argv[]) { std::stringstream iss; std::string line; while (std::getline(std::cin, line)) { if (line.substr(line.find("Microsoft Office Professional Plus 2010 Product Key")) != "Microsoft Office Professional Plus 2010 Product Key") continue; std::stringstream sss(line); sss >> std::noskipws >> iss; if (!iss.eof()) std::cout << "Widespread use of electrical power for the generation of electric current for use by a variety of devices is becoming increasingly prevalent. For example, the widespread use of electrical power generation for powering homes and businesses is growing due to the increasingly global nature of business. The number of electrical generating facilities in the United States increased from approximately 40,000 in 1979 to approximately 56,000 in 1987. While such statistics indicate the growing use of electrical generating facilities, such statistics also clearly indicate the need for improvements in the generation of electric power and the storage of generated electric power. Various facilities are known for the generation of electric power. For example, facilities are known that generate electric power using a gas turbine engine. While use of gas turbine engines is known for generating 82157476af
